To Whom it May Concern:

I am writing to professionally recommend Alexandra Thompson. I had the privilege of instructing Alexandra in two of my courses for the Outdoor Recreation Leadership and Management program here at Northern Michigan University. She took both RE 155 Outdoor Living Skills and RE 392 Internship Preparation and Professional Awareness.

In both courses, Alexandra was consistently very personable and shared ideas freely. Her contributions in class are well thought out and thorough. It is obvious she holds herself to a high standard. During the Internship Prep and Prof. Awareness course Alexandra especially shined, she seemed to have an eye for professional detail that not many of her peers possessed. Her course work often had a welcomed unique flair that showed how in tune Alexandra was with the material.

I have no doubt that bringing Alexandra into your program would benefit both parties equally. I would imagine you would enjoy having her apart of your team as much as we have enjoyed having her in classes.

Sincerely,

Peter Bosma
